Mandatory Assignment 1

Check that the link to your video is at Fronter.

If it is – good! Check if you got an e-mail from me – if not, you have passed the video assignment.

If it is not there, you now have 5 minutes to send me a link (that works). Then you may still pass the video part, if not you have failed (at least) the video part and you have to do another hand-in of this mandatory assignment.

Links to videos

Get a question.

When you need a partner – raise your paper in the air

Find a partner – ask each other the questions. Then change questions and find a new partner.

After the exercise, the answers to all the questions will be uploaded on Fronter, so make sure to check the questions that were difficult during the exercise.

Feedback groups

- Watch the video for the first person in the group
- Take notes during the video on
 - What could be improved
 - How was the concept explained
 - How did the example match the explanation
 - Remember positive feedback too!
- Each of the other persons in the group give their feedback
- When the oral feedback is given, it is possible to ask questions about the feedback and get an elaboration on the comments
- When all the oral feedback is given, the group writes a few lines with the conclusions
- Then watch the video of the second person in the group and repeat the steps
- In the end you e-mail me one document with a few lines with comments on each person in the group
